

Dear Third Grade Parents,

The third grade teachers are using much more video and photographic media this year. We would like your permission to use videos and pictures of the students in these three ways:

1. For classroom instruction (make and share images of students creating projects, giving presentations, etc.) to be displayed in the classroom.
2. Prepare video and audio presentations such as slides shows from field trips, video yearbooks, etc. These would feature pictures and videos of the children and will be shared with the other third grade families.
3. Display audio presentations, pictures and videos on classroom websites.

All three of these ideas need your approval to proceed. Please let us know whether we have permission to photograph and videotape your third grader for these projects. Thank you for considering this request. If you have any questions, please contact us.

Mr. Callahan, Ms. Clark, Mrs. Tebo

Please review each item below. Make a mark next to any items to which you agree.
Please return the form to school when you have made your selections:

_____ I give permission for my third grader to be photographed and videotaped for classroom instructional purposes.

_____ I give permission for my third grader to be photographed and videotaped for use video presentations that will be distributed to other third grade families.

_____ I give permission for my third grade to be photographed and videotaped for display on classroom websites.

Student Name: _____

Parent Signature: _____ Date: _____
